EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on April 19, 2004, assigned serial 10/827,229 and titled "ALIGNMENT OF A FLIGHT VEHICLE BASED ON RECURSIVE MATRIX INVERSION".

2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

a. After carefully reviewing the application in light of the prior art of record, the amended claims and additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

b. Although the prior art disclose several claimed limitations, none of the references teaches a method, system and a machine readable medium for determining alignment of a flight vehicle during flight which includes the steps of generating two flight dynamics or trajectory data in a reference coordinate frame and in a second coordinate frame at a plurality of points in time during the flight, and at each point in time, constructing a first matrix based on the two flight dynamics or trajectory data in the reference coordinate frame at that time, constructing a second matrix based on the two flight dynamics or trajectory data in the second coordinate frame at that time, modifying a first accumulation matrix based on the first matrix and the second matrix, modify a second accumulation matrix based on the second matrix, inverting the first accumulation matrix, and determining an alignment output based on the inverted first accumulation matrix and the second accumulation matrix (see claims 1, 7, 8, 14, 20, 26 and 27).

Art Unit: 3661

c. Claims 1-32 are allowable over the prior art of record.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (703) 305-9755. The examiner can normally be reached on Monday-Thursday from 5:30 AM-4:00 PM

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black, can be reached on (703) 305-8233.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks
Washington, D.C. 20231

or faxed to the Central Fax: (571) 273-8300.
